

May 2010

Dear Parents

I would like to share with you my plans regarding Curriculum Enrichment Week for the Lower Sixth.

On Monday 5 July we shall be going on a Challenge Day during which students will be expected to utilise team work and leadership skills. More details will be released closer to the time but it promises to be a very enjoyable experience.

We take immense pride in preparing our Sixth Formers for university and to help ensure that your child submits a strong application to the university and course of their choice we will be running UCAS workshops over Tuesday 6 July and Wednesday 7 July. During these sessions all students will receive dedicated individual attention and the objective is for them to complete the majority of their online application before breaking up for the summer. We have decided to split the Lower Sixth into their house groups and for Tuesday the houses of Feilden, Harcourt and Gascoigne will be required to attend School. Whilst on Wednesday Queen Anne, Swift and Vanbrugh will be in attendance.

On Thursday 8 July I am pleased to announce that all students will be off to Cirencester where they will be participating in the Head for Heights challenge. This is an initiative which we have run for several years and as well as team building and problem solving the day promises to enable our young people to display courage and leadership. Be prepared for some tired but inspired teenagers. Please note that this will be a late return.

We have attempted to keep costs down to a minimum and I feel that we have struck a good balance in the programme provided and that its emphasis is clearly educational. Please take the time to look through the table of events enclosed herewith and do not hesitate to contact me should you wish to discuss anything further.

Yours sincerely

Mrs S M L Copeland
Head of Sixth Form
